

ASSEMBLY BILL

No. 1212

Introduced by Assembly Member Pavley

February 21, 2003

An act to add Section 30607.7 to the Public Resources Code, relating to public resources.

LEGISLATIVE COUNSEL'S DIGEST

AB 1212, as introduced, Pavley. Public resources: coastal development: permits: restrictions.

(1) Existing law requires a person wishing to perform or undertake development in the coastal zone, as defined, to obtain a coastal development permit, except as specified, in addition to obtaining any other permit required by law from a local government or from a state, regional, or local agency.

This bill would require that a coastal development permit for sand replenishment require the project applicant to provide onsite monitoring and supervision during the implementation of the permit.

The bill would prohibit the permit from being issued until the project applicant provides the issuing agency with a plan for onsite monitoring and supervision during the implementation of the permit.

Because these provisions would impose additional duties upon local governmental entities, the bill would establish a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide

and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 30607.7 is added to the Public
2 Resources Code, to read:
3 30607.7. (a) A coastal development permit for sand
4 replenishment requires the project applicant to provide onsite
5 monitoring and supervision during the implementation of the
6 permit.
7 (b) A permit subject to subdivision (a) may not be issued until
8 the project applicant provides the issuing agency with a plan for
9 onsite monitoring and supervision during the implementation of
10 the permit.
11 SEC. 2. Notwithstanding Section 17610 of the Government
12 Code, if the Commission on State Mandates determines that this
13 act contains costs mandated by the state, reimbursement to local
14 agencies and school districts for those costs shall be made pursuant
15 to Part 7 (commencing with Section 17500) of Division 4 of Title
16 2 of the Government Code. If the statewide cost of the claim for
17 reimbursement does not exceed one million dollars (\$1,000,000),
18 reimbursement shall be made from the State Mandates Claims
19 Fund.
